WHAT MAKES US DIFFERENT?

A Photographic Memory has been in business for over 25 years and has won various awards including The Knot Best of Weddings, WeddingWire Couple's Choice and Bride's Choice awards. Make sure to check out our hundreds of reviews online from our raving fans! We strive to give the most professional experience in the industry, which is why we are fully insured both inside and outside of the United States. We also always carry back up equipment with us, so rest assured that we are prepared for the unexpected and will make sure that your big day runs smoothly.

We plan our arrival at your destination a day or two before your actual wedding. This gives us enough time in the event of a flight being delayed. It also gives us time to scope out your destination location and assess the best areas for photos. The sun is much brighter in tropical locations, so we pay special attention to where the sun will be at the time of major events throughout the day. It's important to us that we capture the best photographs possible and arriving early helps us to do so.

CLIENT'S KIND *Words*

"Dave and James came down for our destination wedding and from the moment they stepped foot on the island they began working – they explored the island and scoped out the wedding venue to ensure they were fully ready to photograph our big day – I don't think they ever stopped working while they were down there! They attended the rehearsal, and with their incredible eye, were able to suggest some critical changes to the layout to ensure the wedding day photos would come out perfectly. On the day of the wedding, Dave and James executed flawlessly. They quickly blended into the background, getting all the best shots, but were always there to lend a hand or provide a suggestion when needed. Dave and James were both extremely professional, polite, friendly, creative, and efficient. My mom, who was very nervous about all the photography, grew to love the two of them and how at ease they made her feel, and our wedding party had a blast with them. They made sure to get all the key photos we requested, but also went above and beyond with endless creative ideas for poses and shots, some of which became hilarious memories from our wedding week! They are exceptionally talented, and always knew how to capture the moment, whether it was the first look with the bridesmaids, an artistic shot in an old sugar mill, the opening of a card to the groom, or the treasured moments during the ceremony and reception. Their photography skills are second to none – the photos they showed us on the day of the wedding, as well as the sneak peek albums we received five days later, were nothing short of incredible and I can't help but look at them daily! Between the colors, the lighting, the angles, and our wedding party, our photos are absolute perfection! We are so thankful we were able to have Dave and James photograph our wedding; having them at our St. John wedding was one of the best decisions we made as they truly captured all the memories we never want to forget!"

- Nicole via Weddingwire

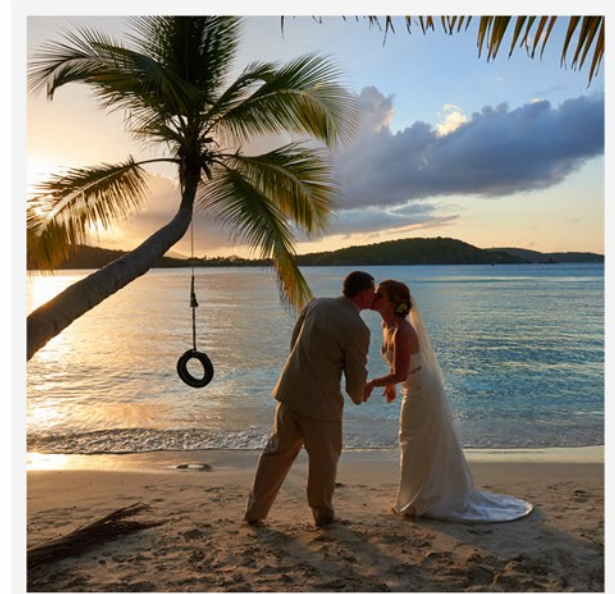

A Photographic Memory is available to travel world wide and is a preferred vendor at various wedding and honeymoon destination locations across the Caribbean. Whether it's the culture and history of Paris or Italy you're after, or the tropical paradise of Hawaii or Jamaica; we'll go anywhere your heart desires. We'll follow you on various excursions to document your wedding/honeymoon so you'll have these photos to look back on. We capture your most cherished experiences that happen once in a lifetime.

Contact us today to see if we are available for your trip. We offer free consultations and can meet with you in person at our studio, talk over the phone, Facetime or Skype if you're not from around our area. If you have any questions about booking your destination photographer, we are here to offer our expert advice and help you through the wedding planning process. Congratulations on your engagement! We would love to hear from you.
